**Bamboo Diaries**  
Natural Building Materials & Methodologies

Bamboo Diaries is a open network of Industry professionals and Academicians to experiment and Innovate on Natural Building Materials and Construction Methodologies.

This community platform works towards Greener habitats and eco-friendly construction methods in Tropical regions of South India. More details can be found at [www.bamboodiaries.in](http://www.bamboodiaries.in)

## RESOURCE PERSONS

**C. Balachandran**, a community architect with 25 years of experience who works with natural materials in and around Mysore

**Nagaraj** is a Structural Engineer with technical panache for concrete design through his experience and **Sunitha** is an Architect whose practice in Bangalore for 18 yrs is built around personalised designs for residences. Both are working to integrate natural building materials into main stream construction. Passion brings them to bamboo.

Joseph P. V is a Bamboo craftsman from Wayanad who loves to construct with Bamboo

# BAMBOO WORKSHOP

PLANTATION | CONSTRUCTION | CRAFTS

For  
Architects, Engineers, Entrepreneurs, Students

19-20 JANUARY 2019  
WAYANAD, KERALA

“

# BAMBOO A NATURALLY ENGINEERED PRODUCT

”

BAMBOO  
CONSTR

Bamboo is one material that's intertwined with Human Life for a very long time. The proverb 'Cradle to Grave' doesn't come into existence without a reason.

This workshop is for all those believe in a green, harmonious and beautiful tomorrow. Architects, Engineers, Students, Entrepreneurs and all those who love Bamboo will find this workshop as a gateway to new careers / Livelihoods and alternative living methods.

With Bamboo getting declassified from a tree to a grass by the Government notification in 2017, the real potential of the material is slowly getting manifested in various fields - construction, furniture, food, paper, crafts and more.

Owing to its high renewability (it grows faster & with least ecological footprint) in today's context of growing natural resource scarcity, the material is getting world-wide attention and 'knowing' this material only make one love it more!

*Come and fall in  
love with Bamboo*

## VENUE

A 10 acre organic farm atop a hill known as Kurumbalakotta, known for its out-of-the-world Sunrise experience. It is 138 kms from Mysuru and can be reached in 3 hours.

The Google location of the venue is:  
<https://goo.gl/maps/1LHZG1ErUsQ2>
